An aerial photograph of a river winding through a lush green forest. Several groups of people are seen tubing and rafting down the river. The water is a mix of green and blue, with white rapids visible. The background is a dense line of trees under a clear sky.

Goat Island

There is a reason Cramerton's tag line is 'So Blessed'

That's exactly how we feel. Right smack in the middle of town is a 30 area island we turned into an outdoor lovers playground (fitness station, walking trails, disc golf, fishing piers and playgrounds. It's not even a five minute walk from the Goat Island Getway. Walk to 8th Ave and turn right. You can't miss the bridge access right next to the fire department.

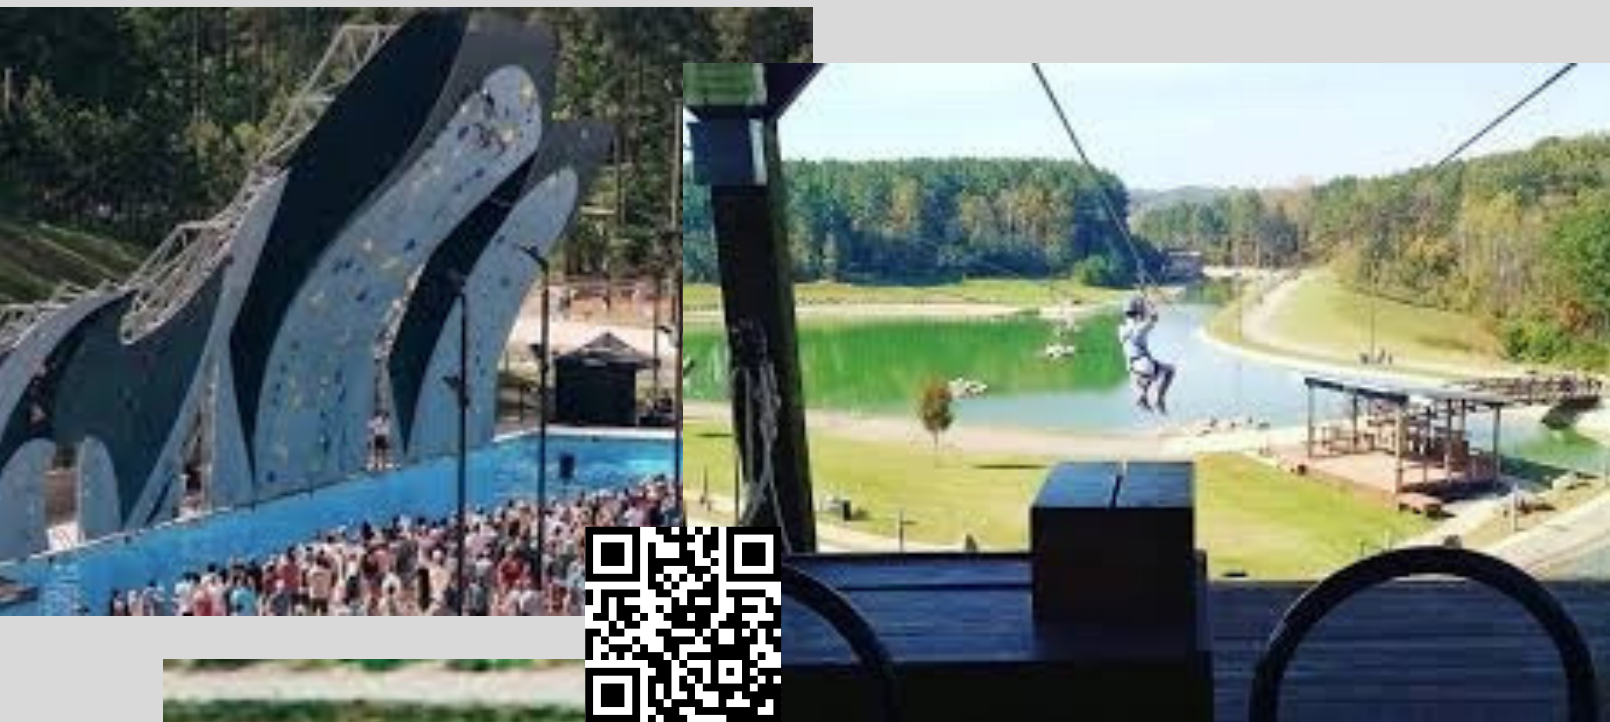

If you walk or ride one of our complimentary bikes don't forget the Ping Pong paddles, golf discs or Corn Hole Bags we provide in right side garage under deck. Please return when you're done for the next guest.

National Whitewater Center

I highly recommend at least one day at The Whitewater Center. It's 12 miles from the Goat Island Getaway and full of things to do. The NWC is comprised of over 1,300 acres of protected land offering 50 miles of trail and access to the Catawba River and Long Creek, whitewater rafting, canoeing, kayaking, rappelling, rock climbing & more. Don't forget to pack your swimsuit, hiking shoes and a change of clothes.

You may want to take advantage of a concert or eat in one of the restaurants around the facility.
